## Emerging Mineral Sands developer – Australia and Tanzania

### Health Safety & Environment Manager

- Proven HSE professional
- Project Delivery, Construction, Commissioning and Operations Handover
- Construction ready, world-class mineral sands project, situated in Gascoyne region of WA

Strandline Resources is on an exciting trajectory from explorer to mineral sands producer. The strategic plan has it advancing the Coburn mineral sands project in Western Australia (with key development approvals in place and project financing and early works execution activities underway). The Company is also undertaking extensive exploration and evaluation activities along the coastline of Tanzania, including at the Fungoni and Tajiri mineral sands projects in Tanzania, creating a potential pipeline of project and operational opportunities.

The Company is now looking to appoint a highly skilled and experienced HSE professional to join the project leadership team and provide the technical guidance for best practice in HSE management. To be considered you will need to be able to demonstrate significant management expertise as well as “hands on” experience in the areas of Health, Safety and Environment of major mining projects through the development phase, including detailed engineering, procurement, construction and operations readiness phases.

Key Personal Attributes include:

- Degree qualification in Health and Safety or relevant fields
- A significant understanding of the legislation and responsibilities for and employer and mine operator
- 5+ years’ experience in managing a team of safety professional and contractors in a mining construction environment
- Excellent stakeholder management and people leadership skills
- Ability and willingness to be the alternate Registered Manager

Key responsibilities include:

- Liaise with Strandline’s owner’s team, contractors and consultants to develop and manage the HSE systems of work
- Take ownership and lead the ongoing development of the Company HSE systems
- Develop simple, concise and professional report presentations that display project HSE performance
- Provide management and guidance to the Strandline project owners team and contractors to ensure a high level of safe systems of work are implemented and maintained
- Contribute to continuous improvement, enhancing delivery methods and working within a multidiscipline project and operational team environment
- Implement and lead the HSE incident investigation process

An attractive remuneration package will be offered to suitably qualified and experienced individuals. We believe this opportunity to join an emerging mineral sands company and be instrumental in the success delivery of a world-class greenfield project development is an exciting opportunity for career development and progression.

The role will commence in the Strandline Perth office and relocate to the project site (in Shark Bay, WA) on an industry standard family friendly roster, as required to discharge all duties of the role and deliver the project in accordance with project time, quality, cost and safety objectives.

The role requires a strong commitment to health, safety, environment and community, including indigenous engagement and stakeholder management.

Applications should be forwarded to [enquiries@strandline.com.au](mailto:enquiries@strandline.com.au), addressed to Karen Trapnell and reference to role title (**RE: Health Safety & Environment Manager**).

*We are an Equal Opportunity Employer and promote equality and diversity. Indigenous Australians and candidates from minority groups are encouraged to apply.*

**\*Please note only successful applicants will be contacted\* No advertising agencies will be accepted.**
