

Development of the world-scale Coburn Mineral Sands Project in Western Australia`

Environmental Officer

- **Site based (Gascoyne Region)**
- **Diverse role**
- **Growth**

Strandline Resources Limited is on an exciting journey from developer to major mineral sands producer. The Company's strategic plan has it constructing the world-scale Coburn mineral sands project in Western Australia. Strandline also owns an emerging portfolio of mineral sands growth projects in Tanzania. Coburn is situated adjacent to the Shark Bay World Heritage Area and contains conservation significant fauna and flora as well as regionally significant vegetation communities.

Strandline is now seeking an enthusiastic **Environmental Officer** to join our Operations Readiness team. To be considered you will need to demonstrate strong experience in implementing approvals and licence conditions for ground clearing activities, construction, and commissioning of advanced process plant and/or non-process infrastructure in the resources sector.

Key responsibilities include:

- Undertake scheduled environmental auditing of site activities and contractors to ensure compliance with conditions, management actions and threshold criteria
- Implement site monitoring programs, primarily for ground water and dust (site & regional programs)
- Interpret and report on environmental monitoring data, compliance items and maintain registers
- Assist specialist consultants with field surveys, including for conservation flora and fauna
- Liaise with the construction team (site & Perth office) to track activity schedules and advise on proposed revisions to the design and implementation of the project to stay within environmental approval and licence requirements

Key Personal Attributes include:

- Degree qualification in Environmental Science, relevant field or demonstrated industry experience
- Includes an understanding of environmental management systems and knowledge of Environmental Protection legislation
- Be proficient at using excel and Microsoft word. GIS capabilities are highly desirable
- 3+ years' experience with onsite execution and management of site construction activities
- A motivated, self-starter with high attention to detail and pragmatic approach to problem solving
- Well-developed oral and written communications skills

An attractive remuneration package will be offered to suitably qualified and experienced individuals. We believe this opportunity to join an emerging mineral sands developer and be instrumental in the successful delivery of a world-scale greenfield project is an exciting opportunity for career development and progression.

The role may commence in the Strandline Perth office with a rapid transition to a site (in Shire of Shark Bay, WA) roster.

The role requires a strong commitment to health, safety, environment, and community, including indigenous engagement and stakeholder management.

We are an Equal Opportunity Employer and promote equality and diversity. Indigenous Australians and candidates from minority groups are encouraged to apply.

***Please note only successful applicants will be contacted* No advertising agencies will be accepted.**
